Description The Hyperice Vyper 2.0 Fitness Roller provides easy self-massage for myofascial release. The massage roller is battery powered to apply an energetic vibrating core to aid in the massage experience. Users can customize the vibration level by choosing from one of three digital vibration settings. What is beneficial about adding vibration to the massage is that it increases blood flow to the muscle, and most importantly, it relaxes and loosens the muscle for optimal conditions for soft tissue massage. The Vyper Roller's outer shell is made from high-density, eco-friendly polypropylene (EPP). This material provides durability as well as effective vibration transfer. As the Hyperice Foam Roller vibrates and rolls over the body's soft tissue, it gently warms up the muscle for effective myofascial release which includes fascia tissue, muscle, and tendons. This has shown to increase flexibility, performance and prevent injury. Increased blood circulation also supports faster recovery as the blood removes lactic acid. For these reasons, it's ideal for athletes and active individuals. However, you don't have to be an athlete to reap the rewards of myofascial release to increase flexibility and reduce pain. Dual-zones found on the surface of the Hyperice Roller make therapy more comfortable, especially to regions of the body with knots or particularly tight muscles and tendons. The smooth and grooved zones create further customization when using the roller. The textured grooves support trigger point therapy massage tools for deeper contact with the muscle when working out knots. The smooth surface may be chosen to make massage therapy more comfortable as the knot is worked out. The Vyper Roller is manufactured with a variety of color choices. Choose from solid black or green or a camo design in color choices of blue, grey, and red. The Vyper 2.0 weighs under three pounds making it easy to transport from home to the gym or office. For instruction on how to use the roller, check out the instruction document below to get tips on how to best perform deep tissue massage to the foot, calf, hamstring, IT band, glutes, shoulders, quads, and more. Features and Benefits Customizable Vibration Settings Rechargeable Lithium-Ion Battery Vibrating Core Effectively Warms and Relaxes Muscle for a More Comfortable Roll Durable EPP Foam Eco-Friendly Foam Material Massages and Loosens Soft Tissue (Muscle, Ligaments, and Fascia) Vibration Increases Blood Flow for Faster Muscle Recovery Dual-Surface Types for Further Customization TSA Approved for Airplane Carry-On Portable, Lightweight Product Specifications Manufacturer: Hyperice Product Number: 31000 001-00 (Black), 31000 245-00 (Blue Camo), 31000 242-00 (Green), 31000 243-00 (Grey Camo), 31000 006-00 (Red Camo) Weight: 3 lbs. Quantity: Each Color Options: Black, Green, Blue Camo, Grey Camo, and Red Camo Diameter: 6 Inch (12.7 cm) Length: 11 Inches Material: Poly-Propylene Foam Shell Battery Type: 16.8V Rechargeable Lithium-Ion Battery Average Battery Life: 2 Hours at Level 3 and Longer at Level 1 & 2 Digital Settings: 48, 60 and 72 Hz AC Charger HCPCS Code: A9270 Warranty: 1 Year Limited Application: Fitness Massage Roller w/ Vibration Vyper 2.0 Roller Charging Instructions Charge roller for at least two hours by connecting the provided AC cord adapter into the roller and plug end into the wall. The LED lights found on the side will indicate battery level to provide a battery life at-a-glance. The roller can be charged at any time. It is recommended that the battery NOT be fully depleted before connecting to the charger. After charging, unplug the adapter from the roller. Do not use roller while it's being charged. Cleaning and Storage Instructions Clean outside of roller with a moist, damp towel. Never submerge roller into water. Manuals and Documents How to Use Technology, Behind the Scenes of Vyper 2.0 (4:35 minutes) Vyper Instruction on Use on Feet (2:58 minutes) This list contains 58 Massagers Under ₹25,000 in India. The Vyper 3 energizes your muscles and gets you prepped for action. Massage away tension, loosen up, and feel better with 3 speeds of high-intensity vibration. Accelerated design Built with your body in mind. The Vyper 3's contoured design helps avoid pressure on your spine and other sensitive areas for a more comfortable roll. Meet your new routine Look forward to the best warm up of your life. Pair the Vyper 3 to the Hyperice App for pro advice, guided sessions, and to monitor your progress from your phone. If the item details above aren't accurate or complete, we want to know about it. While it may look pretty conventional, Hyperice's Vyper 2.0 is no ordinary roller. It contains a high-torque motor and its lithium-ion battery has a claimed run time of up to two hours. Just as dentists say that an electric toothbrush can be better for teeth than a manual one, Hyperice founder Anthony Katz says a vibrating foam roller can be better for muscles than a regular foam roller. He points to independent tests at the University of North Carolina, which found that the Hyperice Vyper 2.0 significantly reduced soreness in test subjects and increased range of motion. 'Foam rolling is a type of self-myofascial release technique that can help relieve muscle soreness and inflammation,' Katz says. 'Traditional foam rolling uses static pressure from your bodyweight to pressurise then decompress soft tissue. Our roller adds vibration at a specific frequency and amplitude, meaning the roller becomes dynamic as it affects the fluid in the body in addition to the soft tissue.' According to Katz, this is important if you want to optimise your body's ability to move. 'The pressure and vibration decompress the fascia layers and also create friction, causing the tissue and surrounding fluid to heat up,' he says. 'That makes it less viscous, so it flows through the body better and allows for smoother and more efficient movement patterns.' Smoothness has long been a desirable trait in a pedalling action, so the Vyper 2.0 could be good news for anyone who fancies a shortcut to souplesse. Buy the Hyperice Vyper 2.0 vibrating roller from Runner's Need for £169.99 • Want expert advice on how to get the most out of your bike?
